

MILEAGE CAPTURE & AUDIT

Our award winning service is designed to **cut fuel costs, reduce administration** and **provide invaluable information about your fleet.**

In a nutshell, we reduce your fuel bills by accurately recording and auditing your employees' business mileage and fuel expenditure. This is how it works:

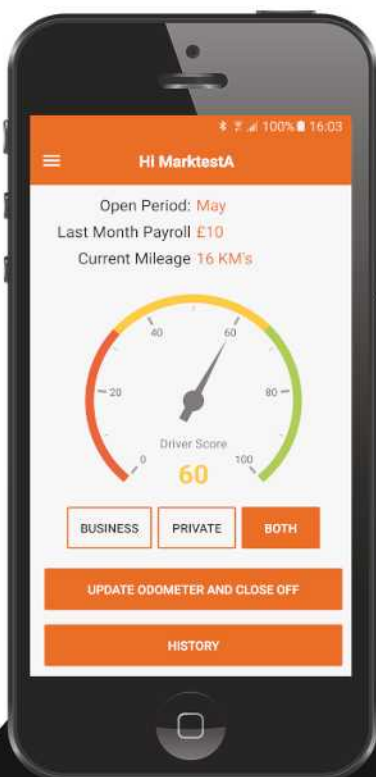

- 1** Drivers log their mileage via our easy to use online system, app, or we take the data from their vehicles' telematics feed
- 2** The data is audited and checked for discrepancies such as overfills, incorrect fuel type, and location of the vehicle at the time of the fill up
- 3** If any card misuse is suspected, our friendly customer services team will contact the driver directly to get more information
- 4** Our system streamlines payments by providing you with a payroll file which you can easily use to deduct private mileage or reimburse business mileage
- 5** Management information reports can also be created to give you greater visibility of your fleet and drivers

On average TMC customers reduce their fuel bills by **15.4%** and save the equivalent of **18.06 pence per litre** on their pump costs.

The benefits:

- 1** Reduces fuel costs
- 2** Reduces administration times
- 3** Deterrent against false claims
- 4** Greater visibility over your fleet
- 5** Improved compliance

Mobile App

We've made drivers' lives even easier with 'Mileage Track', our mobile app to track journeys and load them directly into the mileage capture system. With no need to connect to a PC, and with the ability to upload fuel receipts by taking a photo through the device's camera, logging mileage couldn't be easier for your drivers.

Reporting

We hold so much valuable data about your vehicles, journeys made, miles driven, fuel spend and consumption, that we put the data to good use and produce a range of management reports each month that you can use to steer your fleet strategy.

Our service covers all driver profiles, from company car drivers, to LCV fleets and grey fleet drivers.

Fuel Card

We work with a variety of fuel card providers, and can help you select the right fuel card to suit your needs - whether that be coverage, discounted fuel or maximizing rebates. We can help you with global, regional or national fuel card strategies.
